

Pull for Ronald McDonald House®

WHY PULL TABS?

The little tab that you use to pull open your can of soda can make a significant impact for Ronald McDonald House® of Memphis. The aluminum can is valuable, but the tab is made of a purer, higher-grade aluminum. It is cleaner to collect tabs than cans and also takes up less space. You could even pull the tab off for Ronald McDonald House and then recycle the entire can for yourself or another charity.

COMMUNITY FRIENDLY

Anyone and everyone can join in this effort and share in that wonderful feeling one gets when helping others. In a Ronald McDonald House community outside of Memphis, a homeless man who collected cans from along roadsides took the time to remove the metal rings and quietly brought his contribution to his local Ronald McDonald House. Collecting Pull Tabs appeals to all ages, and is a great way to bring your community group, company, private club, school, church or family together.
